-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1 and 2 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The animal horn, as claimed, is not modified in any manner so that it is an article of manufacture. The animal horn, as claimed, is simply a product of nature.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by “RUWBHI – Water Buffalo Horn Select” from Boone Trading Company, [www.boonetradings.com](http://www.boonetradings.com) (Attachment 1).

Animal horns have been around for millions of years. The image of the tapered water buffalo horn (<http://www.boonetradings.com/RawMaterials/RUWBHI.html>) supplied by Boone Trading Company shows that animal horns with a diameter of  $\frac{1}{4}$ " to  $\frac{1}{2}$ " diameter are well known. Since the claims do not specify where along the length that the horn has a  $\frac{1}{4}$ " or  $\frac{1}{2}$ " diameter, any horn that tapers to a point from a diameter larger than  $\frac{1}{2}$ " would inherently have a diameter in the specified range at some point along its length. As evidenced by the ruler included in the photograph of the horn, the horn has a diameter greater than  $\frac{1}{2}$ ", so it would inherently have a diameter of  $\frac{1}{4}$ " to  $\frac{1}{2}$ " inch at some point along its length.
